The Department of Agriculture and Rural Development (MDARD) promotes agricultural interests of the state and develops safeguards to protect the public from disease and unsanitary conditions in connection with food production and food handling, product labeling, dairy products, animals, and plants. The department also protects consumers by enforcing laws relating to food safety, standard weights and measures, farm produce storage, and dairy products; inspection and enforcement of animal health; control of plant pests and diseases; and perishable fruits and vegetables.

The department is composed of 7 divisions: Animal Industry, Environmental Stewardship, Executive, Operational Services and Central Licensing, Food and Dairy, Laboratory, and Pesticide and Plant Pest Management.

The **Animal Industry Division** is responsible for programs to control and eradicate reportable contagious, infectious, and communicable diseases of livestock, poultry, and equine and companion animals; controlling contamination from toxic substances; enforcing the humane treatment of animals; and promoting Michigan animal industries.

The **Environmental Stewardship Division** provides assistance and support to soil conservation districts, drainage boards, and land users, enabling them to carry out programs maintaining Michigan’s food and fiber productivity and environmental sustainability, control erosion, protect water quality, and protect groundwater.

The **Executive Office** houses the Office of the Director, who is responsible for policy development, department strategic planning, daily operations and more. The following department functions also fall under the Executive Office: **Office of Agriculture Development, Budget, Emergency Management,**

Communications, Legislative Liaison, and support for the Michigan Commission of Agriculture and Rural Development.

The **Operational Services and Central Licensing Division** administers business processes, including accounting, procurement, facility management, and mail operations. The division also oversees the fiscal data needed to assure the timely, accurate, and efficient use of MDARD resources.

The **Food and Dairy Division** administers programs that enforce laws and regulations governing the safety and wholesomeness of food and food products; regulates the commercial handling of farm produce; administers food sanitation programs; and assures a safe, high-quality supply of dairy products.

The **Human Resources Division**, working under the Civil Service Commission, provides all personnel, labor relations, training programs, and equal employment opportunity services.

The **Laboratory Division** provides analytical, diagnostic, and technical support to the regulatory divisions of the department and to other state and federal agencies. The division also prevents economic fraud and deception in the area of weights and measures, labeling, and advertising. It also regulates the sale and quality of motor fuel.

The **Pesticide and Plant Pest Management Division** administers programs to enforce laws and regulations to prevent the introduction and dissemination of serious plant and bee pests; to prevent the adulteration of animal food, unsanitary grain storage facilities, and misuse of pesticides; and to provide assurance that animal feeds and remedies, fertilizers, seeds, and pesticides are accurately labeled. It also provides for grading, inspection, and certification of fruits and vegetables. The division also administers the Grain Dealers Act and the Farm Produce Insurance Act.

Another key unit of the department is the **Office of Agriculture Development**, which is responsible for promoting and providing market opportunities for the Michigan food and agriculture industry, developing economic opportunities in value-added food processing and in international and new market development, helping develop the economic viability of sustainable agriculture, and assisting the Michigan Economic Development Corporation locate and expand agriculture-related businesses in Michigan.
